Education

Master of Professional Studies in User Experience Design

Columbus College of Art & Design: 2025 - 2027

Bachelor of Science in Computer Engineering, Minor in Art & Design

University of Illinois at Urbana-Champaign: 2016 - 2020

Work Experience

Founder of Paper Dosai

May 2024 - Present

Created a wedding stationery and planner business to assist couples with the aesthetics of their wedding and to provide documents that make the planning process easier and more enjoyable.

Key contributions:

- Designing semi-custom and custom wedding stationery suites
- Created a 50+ page wedding planner PDF detailing timeline, aesthetics, vendors, contacts, etc.
- Developed a 30+ page spreadsheet to organize wedding planning details, including budgeting

Brand Designer at SereniMind

October 2024

Created a full brand identity including logo refinement, color palette creation, typeface establishment, and a condensed web development component library.

Software Engineer and Scrum Master at Viasat Inc.

June 2021 - Nov 2023

Developed front and backend components using Javascript/Typescript, React, and Redux for the residential My Viasat website and mobile application, while being scrum master.

Key contributions:

- Developed and assisted in designing the My Viasat Profile page to edit personal information
- Developed Viasat Stream (Disney+) advertisement and refined the purchase flow, resulting in 10,488 sales
- Wrote 22 pages of technical documentation of key features of the My Viasat website
- Created an intuitive workflow board to decrease the number of missed tickets, resulting in an increased team velocity of 22.8 points over 9 sprints
- Acted as a bridge between designers and developers through design and technical discussions

Graphic Design Intern at the University of Illinois Urbana-Champaign

September 2019 - May 2020

Designed event graphics and established a social media presence for ECE ILLINOIS and designed project and research brochures to educate incoming students about possible pathways.
